

COACHING - MENTORING - SEMINARS

# Welcome to the Put More Cash in Your Pocket Webinar Series

#### **SERIES AGENDA**

Part One: Turn What You Know Into Dough!

Part Two: Replicate and Duplicate

Part Three: Fast Promotion to Bring in Customers

Part Four: Ask for the CASH!

## PART ONE REVIEW

 The key to making more money is to do what you already know how to do with a twist...

21<sup>st</sup> Century Lemonade Stand

TEAM - eliminate the naysayers

Fast Cash Formula – 12 / 4 / 5

#### **FAST CASH FORMULA**

12/4/5

- **12** Decide how much money you want to make each month of the year.
- **4** Divide that monthly number by the four weeks in a month, to see how much you need to make a week to hit that monthly target.
- **5** Divide that number by five working days a week, to see how much you need to make a day to reach that weekly target.

## **HOW FAST IS THE PATH TO CASH?**

Most fast money-making ideas are services – not products.

## **EXAMPLE: House Cleaning Service**

**Monday** – Spread the word, create/print flyers & order forms

**Tuesday** – Post flyers around your neighborhood

**Wednesday** – Retain first client by cleaning house of a woman throwing a party

**Thursday** – Clean house day after the party, turn in invoice and receive money for services

Friday – Deposit money in your bank account

## **MODEL CRITERIA**

- Size of company
- Gross revenue
- Employee or contractor base
- Marketing planning
- Sales process
- Joint ventures
- Leadership philosophy

#### **FOLLOW THE LEADER**

1

• Use the internet or look at local businesses for research

ž

• Pick a candidate and collect as much information as possible

3

• Call and talk to the business – take notes

À

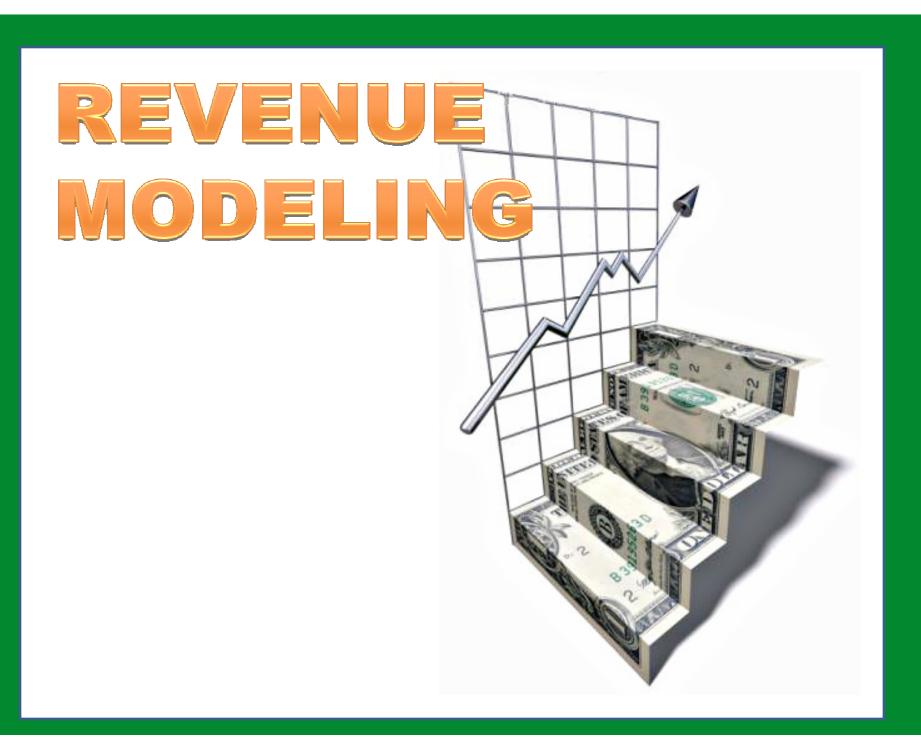

• Gather as much marketing collateral for that business that you can find...study it

Ę

• Determine the best elements you found

ć

• Create your own business model from your research

## **REVENUE PROJECTIONS**

	February						
Revenue Stream	Projected Qty Sold	Projected \$ Produced	Actual Qty Sold	Actual \$ Produced

# PRICE REFINED

The price you used in determining if your idea makes economic sense \$
The prices used by similar businesses you researched  \$ \$ \$ \$ \$ \$
Increase the top price by 10 percent (x 1.10) \$
New Price Estimate: \$

## PRICING MEANS EVERYTHING

By charging a little more than your competitors, you:

1. Create a perception of higher quality

2. Have a more manageable number of clients

3. Spend less time and energy to receive the same amount of money

#### HOMEWORK

- 1. Find model companies and blend the best
- 2. Contact a company and ASK QUESTIONS
- 3. Create your own Revenue Projections
- 4. Send homework to info@liveoutloud.com
- 5. Register for Part Three: Fast Promotion to Bring in Customers
- 6. Get to your resource page at www.liveoutloud.com/morecashseries
